

WKPD-SIM

Wireless Keypad

Overview:

Vanderbilt's WKP-SIM seamlessly blends style and security resulting in a class leading product. The WKP-SIM is slim and stylish and can be installed in seconds. The WKP-SIM is easy to mount, easy to pair, and easy to configure, ensuring installation time is minimized. The WKP-SIM uses enhanced, low current RF technology which provides superior communications and energy saving features ensures a long battery life. The keypad offers a selection of quick select panic alarms. The set/unset fobs are restricted for use with this keypad only.

Class leading security protection:

- ✓ Multi-coloured LED indications
- ✓ EN Grade 2 approved
- ✓ Supplied with easy set/unset fobs
- ✓ Quick set options
- ✓ Panic alarm options

Superior RF and battery performance:

Long battery life

With high performance Lithium batteries and APS (Automatic Power Save) technology the WKPD-SIM keypad has a battery life of 3 years.

Long RF range

500m range in open space means that a single transceiver can cover the majority of installations.

Quick installation and configuration:

Easy to mount

The WKPD-SIM can be quickly screwed to the target surface in seconds. The supplied backplate has an alignment device for the correct positioning.

Easy to pair

Smart Pairing mechanism allows the device to pair with the SPC transceiver in seconds.

Key features include:

- ✓ Automatic pairing on battery insertion
- ✓ LED guided Enrolment
- ✓ LED guided status indications

Easy to configure

The WKPD-SIM device is entirely firmware configurable 'over the air'. Configurable features include:

- ✓ Keypad volume control
- ✓ Supervision time
- ✓ LED behaviour
